

KEBUMEN GEOPARK MANAGEMENT BOARD

“Glowing Mother Earth Of Java”. The name Kebumen come from “Kabumian”, the area where Kyai Bumi or Prince Bumidirdjo lived. Kabumian or commonly called earth science is expected to be a light source of knowledge about the earth which sincerely presents Geological, Biological and Cultural diversity to humans, like a mother’s love for the children. Mother Earth also describes that the origin of the story about the formation of the island of Java is in Kebumen and explains that Kebumen is the oldest earth in the land of Java.

- **The 3 shining stars symbolize the 3 pillars of quality Geopark management:** conservation, education, sustainable economy.
- **KEBUMEN writing is shining yellow,** symbolizing the shining potential of Kebumen’s future.
- **The Swallow’s silhouette:** Symbolize the identity of Kebumen Regency which has cultural and biological treasures.
- **Leaf bud silhouette:** Symbolizes that the agro-economic commodities of Kebumen Regency are still the highest contributor. Besides that, this bud illustrates the hope that the Kebumen Geopark will become a trigger for the growth and development of Kebumen in the future.
- **Swallow silhouette and leaf bud silhouette overlapping:** reflecting 2 earth plates, the oceanic plate and the continental plate that meet at the subduction zone in the Karangsambung Kebumen area.
- **Globe background is blue:** symbolizes breadth and international quality. The line of the globe plate symbolizes the Melange hills of Karangsambung. The blue color reflect the dynamics towards balance.
- **3 Mountain Wayang:** symbolizes the 3 main component of Geopark namely Geodiversity, Biodiversity and Cultural Diversity. The three mountains are interrelated and go hand in toward improving the local economy with a spirit of togetherness.
- **Borderline Circle Brick Red:** unites all shared goals and aspiration to realize the Kebumen Geopark which is beneficial for the welfare the peoples of Kebumen Regency.
